# International Society for Industrial Ecology

---

*Industrial Ecology for a Sustainable Future*, the 3<sup>rd</sup> International Conference of the International Society for Industrial Ecology, is scheduled to take place in Stockholm, Sweden, 12-15 June 2005.

The **ISIE-2005 conference** highlights the contributions that industrial ecology can make towards attaining a sustainable future by providing a forum to introduce advances, discuss practical experience, and explore the human dimensions of applying industrial ecology in corporate and public policy.

**Register by 1 April 2005 to receive an Early Registration Discount. Registration is discounted for ISIE members.**

**Presentation topics include:**

- Corporate Sustainability Reporting
- IE Management/Operations Research
- Sustainable Consumption
- Education and Social Dimensions of IE
- Sustainable Transportation
- Policy Cases
- Sustainable Manufacturing
- IE in a Global Context
- Sustainable Cities
- Managing Energy and Greenhouse Gases
- Eco-Industrial Parks and Networks
- Design for Environment
- Environmental Management
- Waste Management
- Eco-efficiency
- Industrial and Agricultural Applications
- Ecological Systems Theory
- Scenario methods in IE

**ISIE** promotes Industrial Ecology (IE) as a way of finding innovative solutions to complicated environmental problems, and facilitates communication among scientists, engineers, policymakers, managers and advocates interested in integrating environmental and economic concerns

Membership in the International Society for Industrial Ecology means membership in a community of people, from 42 countries, active in developing cooperative business relationships, green products and environmental design.

The School of Forestry & Environmental Studies at Yale University serves as the international secretariat for ISIE.
