WORK EXPERIENCE

Sustainability Consultant GreenInsights

Remote, Netherlands

January 2022 – March 2022

Short project focused on achieving B-Corp certification for client in media sector.

- Client engagement, data collection and data management.
- ESG & GHG Protocol assessment & reporting (Scope 1, 2 & 3).
- Materiality assessment & improvement of ESG standards and practices.

Financial Analyst Accenture

Buenos Aires, Argentina

October 2018 – June 2021

Financial advisory and direct operations support to Financial Controllers of global energy company.

Financial reporting and support in English via advanced data analysis in Excel and SAP systems.

Environmental Consultant & Sampling Technician Ecotec Consultores S.A.

Buenos Aires, Argentina

October 2016 – October 2018

- Provided continuous technical and regulatory advice to 10+ clients on a wide range of industries (automotive, cosmetics, food, among others).
- Engaged with clients, suppliers and government organizations to ensure best environmental practices and legal compliance.
- Advised and directly assisted clients to develop and maintain EMS for ISO 14.001 certifications.
- Execution, evaluation and reporting of Environmental Audits. Follow-up to resolve non-conformities. Development and negotiation of improvement proposals.
- Waste management compliance control and counselling.
- Coordination, execution, and analysis of Hydrogeological Monitoring Network Controls with Groundwater Flow Modelling (GIS) in accordance with local regulations.
- Performance and presentation of affidavits for Hazardous Wastes, Air Emission and Wastewater Discharge Permits.
- Sampling of Air Emission, Wastewater Discharge and Noise Pollution (IRAM/EPA).
- Planning, coordination and performance of Air Quality, Air Emission and PM Monitoring <10&5 µm (IRAM Certification) as well as OHS campaigns.
- Planning and performance of Occupational Health and Safety hazard monitoring. Dosimetry, Noise, Chemical Pollutants, Thermal Stress and Water Quality (NIOSH/OHSAS).

Projects:

- Lead of Process Automation.

Remote Sensing Technician UNSAM Foundation

Buenos Aires, Argentina

May 2015 – August 2016

FUNINTEC is a foundation that stems from San Martin National University (UNSAM). There I was involved in the following projects:

NPUO Project – Formosa, Dioxitek S.A.:

Aquatic and wetland ecosystems Environmental Baseline of Formosa River. Wetland's landscape inventory and environmental profiling of Formosa River.

Project Shallow Lakes of Rio Salado's Sub-basin. Directed by Msc. P. Minotti.

Spectral profiling of phytoplankton and macrophyte sampling sites using Landsat imagery.

- Hydrometric and environmental data compilation.
- Construction of satellite imagery time-series dataset construction (MODIS IV & LST).
- Phyto and zooplankton sampling.
- Ichthyofauna species surveying.
- Data presentation & report editing.

EDUCATION

Leiden Universiteit & TU Delt
MSc. Industrial Ecology (GPA:7.9)

Leiden & Delft, Netherlands

Graduation Date: July 2023

- Life Cycle Assessments, Material Flow Analysis, SDGs, Python, Transition Innovation & Governance

CAECE University
BS in Business Administration, Marketing (GPA: 7.94)

Buenos Aires, Argentina

Graduation Date: December 2015

PROJECTS

**NATIONAL
GEOGRAPHIC**

Project manager
**“Carnivorous Plants as an Innovative Tool for
Environmental Education in Rural Schools”**

Corrientes, Argentina (Remote)

October 2022 – Present

Currently a team member & project manager/GIS expert for NatGeo funded education project in Iberá Wetlands. Focusing on using carnivorous plants as tools to bring environmental education to extremely under-developed rural communities in Argentina, where infrastructure, education and nature are neglected.

Sustainability analyst
Sustainability Challenge - Byewaste

Netherlands

September 2022 – February 2023

Byewaste is a start-up that is leading the way in innovation for waste management by using AI to improve waste reuse and recycling. As a team with fellow colleagues from the MSc. Industrial Ecology we helped Byewaste measure their impacts using LCA and MFA.

VOLUNTEERING

Volunteer & IUCN Redlist Assessor
Carnívoras Argentina

Corrientes, Argentina (Remote)

2017 – Present

I work in an on-demand basis in projects regarding the assessment of conservation status of native carnivorous plants of Argentina. My roles include mainly project management, data analysis and GIS.
