- Yuan Yao
- Wenjie Yao
- David Font

Action items:

Cassie: re-email people about special issue; keep it simple

All: write down list of potential authors of papers in these different SDG areas for the special issue

Haibo: start a draft of the special issue proposal

Cassie: draft the quarterly

All: send 2 JIE paper recommendations to Cassie before the next meeting

David: send info on the launch of the GLAD database. Global LCA database.

Agenda:

- File sharing
 - For team
 - Education Resources
- Special Issue
- Quarterly

Notes:

Haibo has shared a OneDrive folder with the group. Check to see if you can log in.

We have shared webinar announcements with our members on the recent special issue involving LCA.

Special Issue feedback:

- Have heard back from Stefano Cucurachi: "I think the idea is worthwhile pursuing and I'm sure there will be interest from the LCSA community also in relationship to ongoing discussions on scaling/normalizing LCA results to SDGs or planetary boundaries. Also, recently the European Commission has awarded a sizable collaborative project on LCSA, with an emphasis on social LCA, which proves that the community is active."
- Feedback from Thomas Schaubroeck: "I am willing to, for now, give my support and potential interest to serve as a guest editor. Are any of the editors of the previous special issue on board? A first main reflection: I would not limit LCSA-indicators to SDGs-indicators or its scope; maybe you can put the focus on it but don't limit it to

that. The SDG framework also has its drawbacks as discussed in my work in JIE (Schaubroeck and Rugani, 2017).”

Who can we invite?

We would need about 30 submissions, or ~4 submissions per board member.

- GOAL 14: Life Below Water
- GOAL 15: Life on Land
- GOAL 16: Peace and Justice Strong Institutions
- GOAL 17: Partnerships to achieve the Goal

*easier topics for the ISIE LCSA community?

Strongly encourage researchers who incorporate social aspects like: no poverty, zero hunger, good health, quality education, gender equality, and reduced inequality.

Staying away from common topics like food-energy-water nexus. Health, poverty, education, and equality are all good topics to encourage.

We will need editors, and brainstorm with them.

We will start drafting the proposal and list out potential authors.

Quarterly: what topics might we want to include?

- The GLAD database launch.
